

ROTA VATOR

MULTI SPEED

GEAR DRIVE

ADVANTAGES

AGRIMATE

- Unique design consumes less fuel.
- Its unique design allows to work with minimum vibration in the field as well as less operating load on the tractor.
- Rotavator using sealed bearing, providing better protection from dust & Moisture.

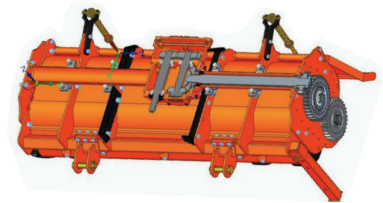

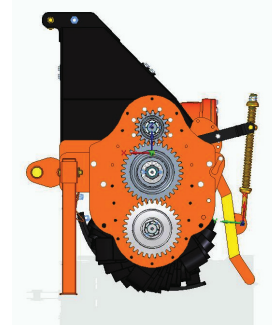

AGRIMATE

- Agrimate Rotavator has been designed to work in soft & hard, wet & dry conditions.
- The helical arrangements of blades allow for better cutting of soil & helping in better pulverisation.
- The working depth is adjustable from the side skid assembly from 3" to 7"
- Multi speed gearbox allows the user to configure the rotavator for optimum operation as per requirements by changing the back gears.

Good Products – Great Values

HEAVY DUTY SERIES

Our unique design is compatible with majority of tractor brands & models
